

Naive model

$\rho = -0.01$

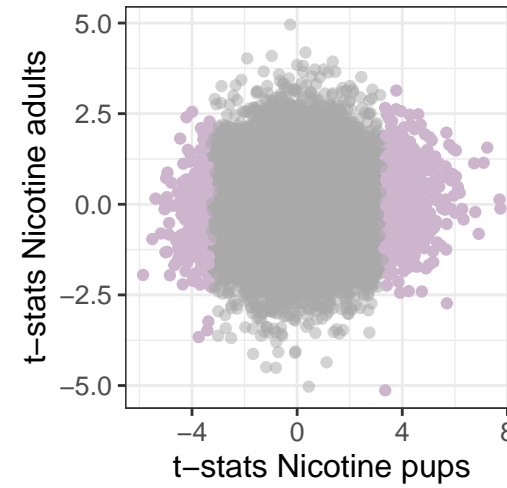

Differential expression

- sig Both
- sig Nicotine pups
- sig Nicotine adults
- None

Fitted model

$\rho = 0.01$

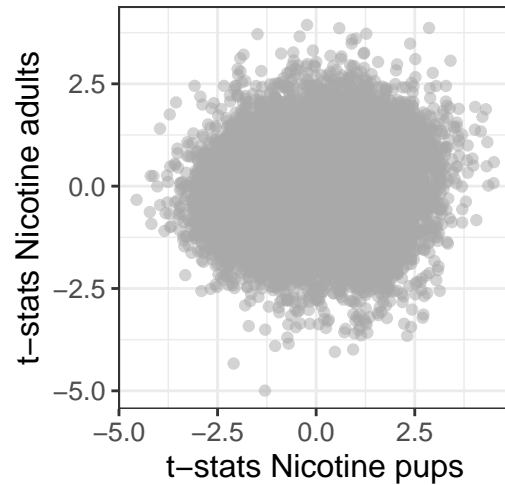

Differential expression

- sig Both
- sig Nicotine pups
- sig Nicotine adults
- None

Interaction model

$\rho = 0.09$

Differential expression

- sig Both
- sig Nicotine pups
- sig Nicotine adults
- None
