

Naive model

$\rho = -0.01$

$p = 0.072$

Differential expression

sig Both

● sig Nicotine pups

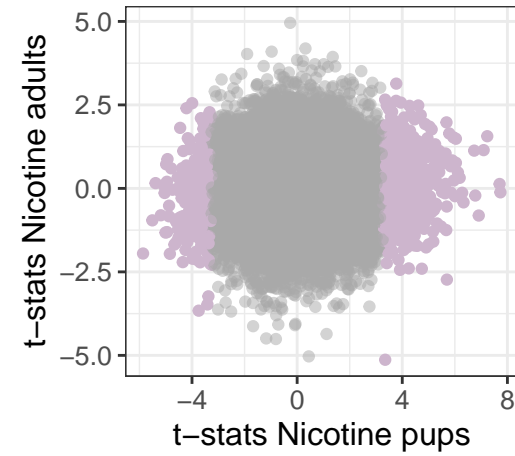

sig Nicotine adults

● None

Fitted model

$\rho = 0.01$

$p = 0.055$

Differential expression

sig Both

● sig Nicotine pups

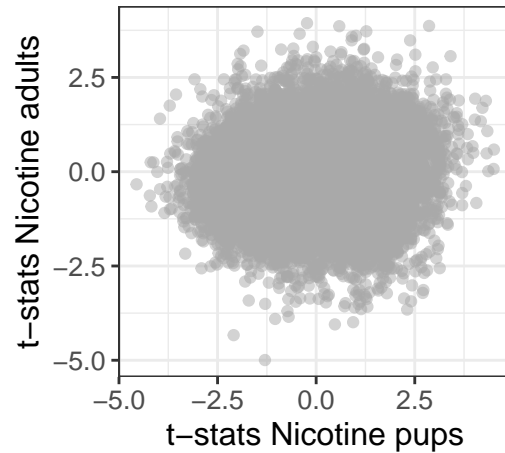

sig Nicotine adults

● None

Interaction model

$\rho = 0.09$

$p = 7e-35$

Differential expression

sig Both

sig Nicotine pups

sig Nicotine adults

● None
